

Scenario 1: Test Drive Booking

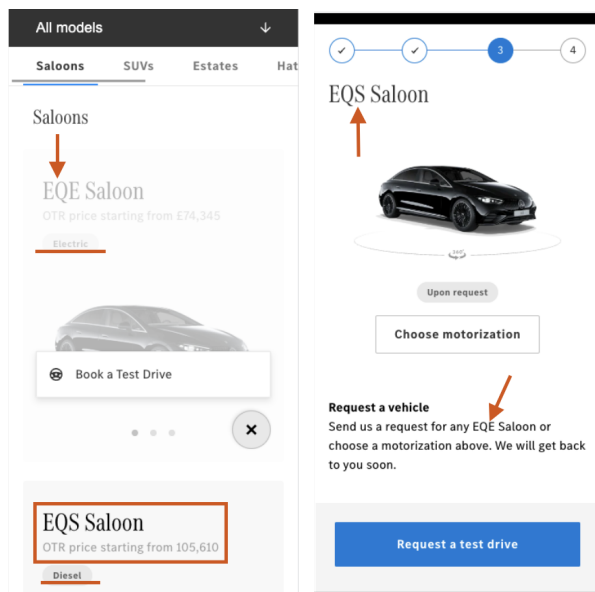

BUG #1

ID: MBIO-1	Severity: Low	Reporter: Andreia Sanz
Title: App header is missing on steps 2 and 3		
Description Actual result On the first screen of step 2 and on the step 3, there is a black horizontal space. On the second screen of step 2, the header is missing. Expected result During the booking experience, the app header should be the same as displayed on the step 4. Steps to reproduce <ol style="list-style-type: none">1. Select a vehicle2. Click on the Book a Test Drive CTA and then complete de booking processe Identified on: <ul style="list-style-type: none">• Production enviroment• Safari v16.5 iOS 16• Market: United Kingdom• App version: 6.0		

BUG #2

ID: MBIO-2	Severity: High	Reporter: Andreia Sanz
Title: Vehicle information is not correct		
Description Actual result The selected vehicle was EQE Saloon but the vehicle information on step 1 is referring to EQS Saloon model. On the step 3, the vehicle model name is EQS Saloon too. Besides that, the vehicle information (name, price and motorization) between step 1 and step 3 is different. On the step 1 the vehicle is electric on the image but diesel on vehicle information. On the step, the price doesn't have the currency. Expected result On the step 1, all the vehicle information should be updated with EQE Saloon vehicle information as a electric model. On the step 3, the vehicle model name should be EQE Saloon. Steps to reproduce <ol style="list-style-type: none">1. Start the booking process2. Check vehicle information on the step 13. Go to step 3 and check vehicle information Identified on: <ul style="list-style-type: none">• Production enviroment• Safari v16.5 iOS 16• Market: United Kingdom• App version: 6.0

BUG #3

ID: MBIO-3	Severity: Low	Reporter: Andreia Sanz
Title: Number of showrooms is not correct		
Description Actual result On the step 2 the number of showrooms in the map is not the same as the search result. In the map, there are 116 showrooms but the search result is saying that there are 221 showrooms. Expected result The total number of showrooms in the search result should be the same as the sum on the map. Steps to reproduce 1. Go to the step 2 of the booking process Identified on: <ul style="list-style-type: none">• Production enviroment• Safari v16.5 iOS 16• Market: United Kingdom• App version: 6.0		

BUG #4

ID: MBIO-4	Severity: Low	Reporter: Andreia Sanz
Title: Double horizontal scroll on step 1		
Description Actual result There are two horizontal scrolls on the models navigation. Expected result Remove the grey horizontal scroll and keep only the blue one as we have on the search of the step 2. Steps to reproduce 1. Open the vehicle model selection screen. Identified on: <ul style="list-style-type: none">• Production enviroment• Safari v16.5 iOS 16• Market: United Kingdom• App version: 6.0

BUG #6

ID: MBIO-6	Severity: Medium	Reporter: Andreia Sanz
Title: Incorrect form data		
Description Actual result The email doesn't have the correct format. The contact number has the country code so the error message is not necessary. Expected result Insert a validation to confirm that the inserted email has the correct format, such as something@something.com The error message on the contact number should only be displayed if the user doesn't insert the country code or if it is invalid. Steps to reproduce <ol style="list-style-type: none">1. Go to step 4 and fill the email without @2. Fill the contact number with country code Identified on: <ul style="list-style-type: none">• Production enviroment• Safari v16.5 iOS 16• Market: United Kingdom• App version: 6.0		

Scenario 2: Search a vehicle

BUG #1

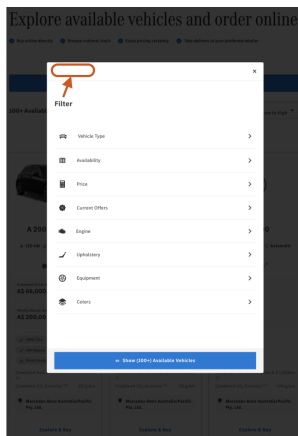

ID: MBIO-1	Severity: Medium	Reporter: Andreia Sanz
Title: Search Page - Image of GLA 200 didn't load		
Description Actual result The image of GLA 200 vehicle didn't load. Expected result The image of GLA 200 vehicle should loads as the others one. Steps to reproduce 1. Open the Search page Identified on: <ul style="list-style-type: none">• Production enviroment• iPad Pro 12" Chrome v114.0.5735.198• Market: Australia• App version: 8.246		

BUG #2

ID: MBIO-2	Severity: Low	Reporter: Andreia Sanz
Title: Filters modal - Title is not at the top		
Description Actual result The Filters modal have the title on the content of the modal. Expected result The “Filter” title should be on the top of the modal. Steps to reproduce <ol style="list-style-type: none">1. Go to the Search page.2. Click on the “All Filters” CTA Identified on: <ul style="list-style-type: none">● Production enviroment● iPad Pro 12” Chrome v114.0.5735.198● Market: Australia● App version: 8.246		

Note: I don't know if this is an issue but it is a little strange to see the title on the content of the modal and not aligned with the close button. If it is not a bug, I would report it as an improvement to the design team.
